# KanBuild Mortgage Protection Plan *Plus*

“Protecting Your Home”

The time has never been better than now to buy a new home, especially with today's low interest rates. Now is also a time when job security can be a concern. Rest assured, KanBuild and Sherwood Forest have a program to help ensure that your mortgage payments will be made in the event you experience an involuntary loss of income.

Today, the number-one reason for mortgage default is loss of employment. This exceptional program can protect you against the very thing that can put your household finances in crisis..

***“Can you put a price tag on piece of mind?”***

In the event you lose your job within the first 2 years you own your home Kan Build will make your mortgage payment up to \$1800 a month for six months. You will have peace of mind knowing that your home is protected. For more information on this fantastic program, please contact Sherwood Forest Homes. Program ends June 1st.
